

The Give Back Challenge

Become a Certified Give Back School

What?

Certified 'Give Back Schools' use The Give Back Challenge to foster kindness and empathy in their students. Hands-on projects are provided by The Giving Tree and are done throughout the school year with the enrolled students. Youth will take part in the activity, discussions, and reflection. All projects will be distributed to local non-profit organizations by The Giving Tree.

How?

1. Sign up your school at Givingtreefamilies.org
2. Choose student participants
3. Work with The Giving Tree team to create your service plan & determine your project choices.
4. Share our program flyer with the participating families
5. Share photos and experiences on social media and other outlets.

When?

Service learning is encouraged throughout the school year. Activities can be chosen from our menu. They are divided into categories of giving. Projects will benefit children in need, the homeless community, seniors and community heroes. Children will also participate in a unique peer-to-peer activity to share kindness with others.

Why?

We celebrate schools for their dedicated effort to teach students the importance of charitable giving. Community leaders, parents and teachers of tomorrow need to learn these lessons of kindness today.
